**Computer Server Administration**

Certificate of Applied Science Degree

Program Director: Steven Robinett

NOTE: This program is in moratorium and will not be accepting new students.

Gainful Employment Programs Information (http://www.gfcmsu.edu/webs/gepi/compservadmin.html)

The Computer Server Administration program prepares individuals for employment in the computer networking field, specifically focusing on server management, maintenance, and administration. Students in this program gain hands-on experience with computer hardware, software, and networks. Upon successful completion of the program, the student will have the needed skills to sit for the CompTIA Network+, Linux+ and Microsoft MCSA/MCSE certifications.

**Outcomes**

Graduates are prepared to:

- Demonstrate an advanced level of understanding of Microsoft 2003 server configuration.
- Demonstrate a basic understanding of network infrastructure design and configuration.
- Demonstrate a basic understanding of the Linux server operating system.
- Pass the MCSA / MCSE industry standard certification exam battery with at least an 70%.
- Obtain and keep a computer server professional position within the workforce.

**Estimated Cost**

* Fall 2017 MUS Student Health Insurance Premiums will be changing. Please check the Health Insurance website (http://students.gfcmsu.edu/insurance.html) and/or Student Central for confirmed premium rates. Students will be charged an additional fee of $21 per credit for online/hybrid courses.

**Program Requirements**

Many students need preliminary math and writing courses before enrolling in the program requirements. These courses may increase the total number of program credits. Students should review their math and writing placement before planning out their full program schedules.
