

Dental Assistant

Certificate of Applied Science Degree

Program Director: Robin Williams

NOTE: This program is currently under review and will not be accepting new students.

Please contact the program director for other options.

Program Website (<http://www.gfcmsu.edu/webs/dentalassistant/>)

Dental Assistants are important members of the dental health care team and primarily help to increase the efficiency and productivity of the dental practice by assisting the dentist in delivering patient care. Other employment opportunities and/or responsibilities include dental health education, performing expanded duty dental care on patients, business practice, or working with dental insurance or dental supply companies. Because dentists employ two or three dental assistants, employment opportunities are excellent.

The GFC MSU Dental Assistant program is a one-year (11 month) limited enrollment Certificate of Applied Science program and accepts up to 18 students each year. Applicants are advised to contact Advising or Career Center Advisors or a Program Director for further program information specific to admission requirements.

Interested students must complete an application to the program (separate from the institution application) for program acceptance. These students must place into the program-required math and writing courses (M 088 and WRIT 101 or 121) OR their equivalents OR be currently at the competency level for the program-required math and writing courses. Applicants must be in good academic standing for program entry.

Following acceptance to the program, students complete three semesters concluding with a summer semester when the students are enrolled in clinical practice. Students will be required to purchase uniform attire and provide their own transportation (and lodging, if applicable) to and from clinical site assignments.

The Dental Assistant program will:

- Maintain an instructional curriculum that meets the standards of the American Dental Association's Commission on Dental Accreditation and of the local dental community.
- Deliver relevant learning experiences and curriculum sequencing to ensure graduates achieve adequate knowledge and skill to enable them to be employed in the field as entry level Dental Assistants.

Outcomes

Graduates are prepared to:

- Sit for the national certification examination administered by the Dental Assisting National Board.
- Perform with entry level skill and competence in assigned chairside dental assistant duties and responsibilities (including expanded duty functions as defined by the Montana Board of Dentistry).

- Substantiate the mastery of oral radiography theory and techniques.
- Utilize computer technology associated with the profession of dentistry, including but not limited to digital radiography, intraoral cameras, and dental-specific software for the operation of a dental practice.
- Integrate concepts in the dental sciences, prevention, and oral health promotion to a variety of treatment situations in the dental setting.
- Demonstrate appropriate cultural, legal, ethical, and professional values (including adherence to HIPAA standards).
- Articulate dental language appropriate in business, clinical, and educational situations.
- Apply OSHA infection control standards during all aspects of dental care and practice.

Estimated Cost

Estimated Resident Program Cost*

Tuition and Fees	\$5,298
Lab/Course Fees	\$425
Uniforms	\$250
Program Fee	\$402
Books/Supplies	\$973
Total	\$7,378

*

Fall 2023 MUS Student Health Insurance Premiums may be changing. Please check the Health Insurance website (<http://students.gfcmsu.edu/insurance.html>) and/or Student Central for confirmed premium rates. Students will be charged an additional fee of \$21 per credit for online/hybrid courses for only Summer 2023 classes.

Program Requirements

Many students need preliminary math and writing courses before enrolling in the program requirements. These courses may increase the total number of program credits. Students should review their math and writing placement before planning out their full program schedules.

The Dental Assistant program sequence is as follows:

(The student, however, may complete any or all of the general education coursework (non-DA) prior to entry to the Dental Assistant program, i.e.: M 088 or higher, and/or COMX 115 or PSYX 100)

A grade of C- or above must be achieved in all courses to advance in the program and to graduate.

Course	Title	Credits	Grade/Sem
