

Early Childhood Education CTS

Certificate of Technical Studies Degree

Contact: Cindy Stevens

This program is offered in person; however, some of the course work may be available in online or hybrid format- discuss options with your advisor.

This program is designed to prepare students with the skills needed to be successful working with young children in infant/toddler and early childhood care educational settings.

This stackable credential may lead students directly into the Associate of Applied Science Degree in Early Childhood Education.

For more information on other degrees offered for Early Childhood Education, visit the catalog pages for the Early Childhood Education CAS (<http://catalog.gfcmsu.edu/academic-programs/early-childhood-education-cas/>) and Early Childhood Education AAS (<http://catalog.gfcmsu.edu/academic-programs/early-childhood-education-aas/>).

Outcomes

Graduates are prepared to:

- Know and understand young children's characteristics and needs.
- Know and understand the multiple influences on development and learning.
- Use developmental knowledge to create healthy, respectful, supportive, and challenging learning environments.
- Know about and understand family and community characteristics.
- Support and empower families and communities through respectful, reciprocal relationships.
- Involve families and communities in their children's development and learning.
- Understand the goals, benefits, and uses of assessment.
- Know about and use observation, documentation, and other appropriate assessment tools and approaches.
- Understand and practice responsible assessment.
- Know about assessment partnerships with families and other professionals.
- Know, understand, and use positive relationships and supportive interactions.
- Know and understand the importance, central concepts, inquiry tools, and structures of content areas or academic disciplines.
- Use own knowledge and other resources to design, implement, and evaluate meaningful, challenging curriculum to promote positive outcomes.
- Identify and involve themselves with the early childhood field.
- Know about and uphold ethical standards and other professional guidelines.
- Engage in continuous, collaborative learning to inform practice.

- Integrate knowledgeable, reflective, and critical perspectives on early education.
