Core Indicators of Institutional Effectiveness
Great Falls College MSU (GFC MSU) is committed to continuous improvement, the evaluation of institutional effectiveness, and the assessment of student learning. This commitment is reflected through an assortment of activities and processes emanating from the College's mission, vision, values, core themes, and strategic plan.

As we strive to become more performance-based in the allocation of resources and create a mission-centric model to document our effectiveness, GFC MSU has established a set of measures to guide our processes. These measures, known as core indicators of institutional effectiveness, support our everyday operations and assist us as we seek continuous improvement towards mission fulfillment.

GFC MSU's core indicators of institutional effectiveness stem from the Montana Board of Regents’ system measures of effectiveness, federal accountability law and policy, and the College's Mission and Core Themes. The core indicators of institutional effectiveness are summarized in the following:

- Core Indicator 1.1: Workforce Program Enrollment
- Core Indicator 1.2.1: Workforce Program Retention
- Core Indicator 1.2.2: Workforce Program Degrees and Graduates
- Core Indicator 1.2.3: Graduate Employment
- Core Indicator 1.3.1: Customized Training Enrollment
- Core Indicator 1.3.2: Customized Training Demand
- Core Indicator 2.1.1: Transfer Enrollment
- Core Indicator 2.1.2: Transfer Retention
- Core Indicator 2.1.3: Number of Transfer Graduates
- Core Indicator 3.1: Success in Developmental Coursework
- Core Indicator 4.1: Enrollment
- Core Indicator 4.2: Resources Donated to College
A core indicator is "...a regularly produced measure that describes a specified condition or result that is central (or foundational) to the achievement of a college's mission and to meeting the needs and interests of key stakeholders" (Alfred, Shults, and Seybert, 2007, p. 12). Alfred, Shults, and Seybert (2007, p. 23) identified sixteen core indicators of effectiveness for community colleges. If applied comprehensively, these indicators will establish the foundation for a model of institutional effectiveness that will allow us to document our performance. We have adapted those core indicators and they are divided into five components related to our mission: student progress, developmental education, outreach, workforce development, and transfer preparation (Alfred, Shults, & Seybert, 2007, p. 23).

Core Indicators of Institutional Effectiveness are assessed at the institutional level. In addition, departments and divisions maintain and assess their effectiveness with unit-level indicators.
