

Transferable Programs of Study

Great Falls College MSU has a number of Programs of Study with Montana public and private colleges and universities. These make it possible for students to plan a program of study that begins with a series of courses at Great Falls College MSU and leads to a two- or four-year degree from another college or university. These Programs of Study are designed to maximize the number of credits students will be able to transfer and to minimize students' time to earn a degree.

Students interested in attending Great Falls College MSU and utilizing a Program of Study listed in the catalog are encouraged to indicate their interest to an Academic Advisor prior to or during their first term in attendance.
