PN Program Application (http://www.gfcmsu.edu/webs/nursing/documents/Practical_Nurse_Application.pdf) (Fall 2025 Application available February 14th)

The Practical Nurse program prepares individuals to function as entry-level practical nurses with the ability to give safe, effective nursing care. The Practical Nurse program at Great Falls College Montana State University is currently approved by the Montana State Board of Nursing.

Upon completion of the Certificate of Applied Science Degree in Practical Nursing, students will be prepared to begin a successful career as a practical nurse. Students are prepared to sit for the national licensure examination for practical nursing.

The Practical Nurse program is a limited enrollment program. Interested students must apply for entry into the program. An application packet is available on the program website. The length of the program is two consecutive semesters after a semester of pre-requisites. For students that live more than 30 miles from Great Falls, Great Falls College MSU offers Practical Nursing as a hybrid program with distance learning options. Starting Fall 2020, Great Falls College MSU will begin offering a part-time option for the Practical Nursing program, completed over four semesters (after completion of pre-requisites) to allow students more flexibility. The students in the part-time option will take classes offered in the same semesters as the full-time option.

Accepted students will be required to provide proof of Health Care Provider CPR certification, a DOT-compliant urine drug screen, a background check, and a series of other specific immunizations. Further detailed information will be included in the acceptance packet. Computer skills are highly recommended.

The Hepatitis B immunization series is strongly recommended before entrance into the program. A student may be denied access to clinical rotations without an adequate Hepatitis B titer. Students having religious or personal conflicts against receiving the Hepatitis B vaccine must sign a release form.

Outcomes

Graduates are prepared to:

- Demonstrate accountability, responsibility, civility, advocacy, and commitment to nursing when dealing with clients and families, as a member of the health care team.

- Use communication that is effective and therapeutic, along with technology, to implement problem solving processes in the evidence-based delivery of patient care.
- Complete a patient's health status assessment and analyze data to formulate a complete plan of nursing care to provide clinically competent, evidence-based, safe, and quality patient care.
- Practice within the PN Scope of practice, legal and ethical frameworks, and within national and state standards of nursing practice.
- Provide holistic, culturally-considerate care in a variety of healthcare settings to promote integrity, dignity, and personal growth for clients, families, communities, and oneself.
- Contribute to the individualized care plan by collaborating with health care team members to adapt health care practices to meet the individual needs of patients.

Full-Time Requirements

Full-Time Requirements

Many students need preliminary math, science, and writing courses before enrolling in the program requirements. These courses may increase the total number of program credits. Students should review their math and writing placement before planning out their full program schedules.

The Great Falls College Practical Nurse Program is a limited enrollment program, accepting a restricted number of students each year. Interested students are urged to contact the Practical Nurse Program Director or Advising and Career Center Advisors for student advising specific to admission requirements and criteria for program acceptance.

Prerequisite Courses

The following courses must be completed prior to admission into the Practical Nurse Program. All prerequisite coursework must be completed with a minimum grade of C (not a C-) in each course and a minimum cumulative GPA in prerequisite coursework of 2.5. Grades in prerequisite courses are a major factor in ranking applications for program acceptance.

Science courses with labs must be completed within five (5) years of application to the program, and other courses must be completed within 15 years of applying to the program.
